

BRAND STORY

- Our passion

Made By Hand is a Danish design brand with a passion for craftsmanship and timeless refined products – offering a sense of harmony and comfort to everyday life.

At Made By Hand, we are inspired by many Scandinavian craft traditions and styles - an array of opportunities to develop authentic and durable design products.

All Made By Hand design products are manufactured by local craftspeople in Denmark and abroad. We celebrate the local cultural experience and expertise for designing and crafting products by hand.

KNIT-WIT

- An old craft made modern

The Knit-Wit lamp is designed by Danish design studio ISKOS-BERLIN. Though knitting is an old craft, it hasn't yet been exploited for modern design lamps, and this was the fundamental aspiration for Made By Hand.

The knitted materiality of the Knit-Wit lamp distributes light through the yarn's pattern, making each lamp distinctive and decorative. The Knit-Wit family of lamps with their basic shape, warmth and lightness, range of sizes and wide color palette can easily and naturally find their place in any interior – from private houses to public spaces.

MACHINE KNITTING

- Versatile and sustainable

Though knitting is an old craft, it has not yet been exploited for modern design lamps. With today's advances in technology, knitting is becoming one of the most sustainable and versatile methods of textile production.

Knitting is also a very progressive technology that allows for the creation of complicated 3D shapes without any cut-offs and sewing; in fact, there is no waste of yarn at all.

FLAME RETARDENT POLYESTER

- Materials matter

Our Knit-Wit lamps are made on modern knitting machines in collaboration with a pioneering Austrian family company sharing our passion for the expertise and creativity in craftsmanship. The knitting used for Knit-Wit lamps is 100% PES flameretardent, which fulfills DIN 4102-1B1. This is the highest standard available.

CARE INSTRUCTIONS

- Please remember

Thank you for buying a Made By Hand product! The materials and surfaces has been chosen to withstand daily use. This means a damp cloth is sufficient to keep the appearance long lasting.
